

OneHorn

SPRED

Fertilizer Spreader

Introducing **OneHorn Spred** the advanced fertilizer spreader inspired by the trusted OneHorn platform. Engineered with a precision square-shaped hopper and a high-performance four-blade spreading disc, Spred delivers exceptional accuracy for both granular and crystalline fertilizers. Designed to cover more ground with consistent, uniform distribution, it enhances productivity while reducing waste. Built for reliability in demanding field conditions, Spred ensures superior coverage, maximum efficiency, and professional-grade fertilization results every time.

Salient features

- ✓ Stainless steel fertilizer spreading disc ensures corrosion resistance and longer life
- ✓ Compact and robust hopper design makes it easy to handle and durable
- ✓ Heavy duty gear box delivers reliable performance with low maintenance
- ✓ Dual sided spreading spreads fertilizer on both sides for faster coverage and higher efficiency

Technical specification*

Advantages

Get more work done in less time while saving on labour and fertilizer costs.

Achieve consistent crop growth with fast, uniform fertilizer distribution across the field.

Operate effortlessly from your seat with simple lever control — no need to stop or adjust manually.

Increase versatility on your farm— use the same machine for both fertilizer spreading and seed broadcasting.

Cover wider areas in a single pass (12–14 meters), boosting productivity and reducing field time.

MODEL	SPRED 400
Hopper capacity (ltr.)	400 litres
No. of the spreading disc	1
Total width (w) (mm)	1200
Total length (L) (mm)	1014
Total height (H) (mm)	1193
Working width (mtr.)	14
Category	2
Agitator system	Vertical
Type of gearbox ratio	1 : 1
PTO (rpm)	540
Required power (hp/kw)	40-50 / 30-34
Total weight (kg) (lbs)	120 / 265

About OneHorn

OneHorn is built to make agriculture more productive, reliable, and rewarding for farmers. Backed by the 65-year manufacturing legacy of NIPHA Group, OneHorn brings proven engineering strength and trusted quality to the field. Our machines are designed with a clear focus on value-driven pricing, ensuring farmers get the right performance at the right cost, without compromise. At the core of OneHorn is a commitment to strong ethics and transparency, so every product delivers consistent performance you can rely on season after season. With a deep understanding of real agricultural needs, OneHorn is not just offering machinery — it is enabling farmers to work smarter, improve productivity, and build a more secure future.
