

OneHorn

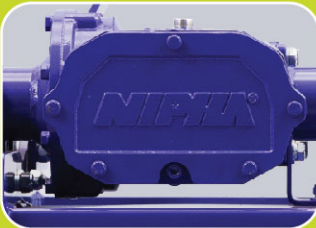

BOLD

High Quality multispeed Gearbox and mechanical face seal

The **Bold Series** is a versatile range of rotary tillers engineered for compact tractors, delivering exceptional performance in intercultivation and orchard operations while effectively controlling weeds for superior dry and wet tillage efficiency—making it an essential tool for every farmer.

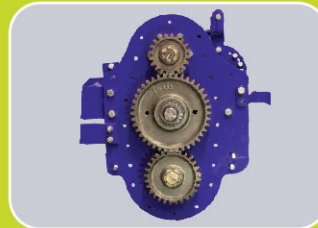

Salient features

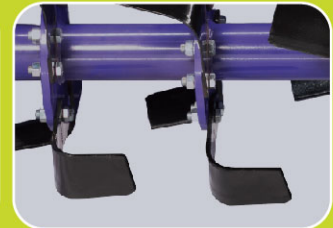

In-house manufacturing assured quality

Duo cone face seal suitable for dry & wet land

EN 353 gears for longer life and supreme performance

Boron steel blade for high durability and helical blade arrangement

Advantages

Nominal maintenance

Fuel efficient

Best soil preparation

About OneHorn

OneHorn is built to make agriculture more productive, reliable, and rewarding for farmers. Backed by the 65-year manufacturing legacy of NIPHA Group, OneHorn brings proven engineering strength and trusted quality to the field. Our machines are designed with a clear focus on value-driven pricing, ensuring farmers get the right performance at the right cost, without compromise. At the core of OneHorn is a commitment to strong ethics and transparency, so every product delivers consistent performance you can rely on season after season. With a deep understanding of real agricultural needs, OneHorn is not just offering machinery — it is enabling farmers to work smarter, improve productivity, and build a more secure future.
