

OneHorn

VEERAB

Optimised for lower horsepower tractors

Break compaction. Unlock performance — even with less power. Built on the OneHorn promise of value, quality, and performance, Veerab delivers effective deep subsoiling without overloading your tractor. It breaks hard soil layers to improve root growth and moisture access, enhances water retention, and supports better performance during dry conditions — ensuring healthier crops with lower fuel consumption.

Salient features

With border guards/buffers

Double rotors with hydraulic height adjustment

Security screw for extra protection

MODEL NO.	VEERAB 5
Working reach (M)	2.5
No. of working bodies	5
Maximum depth	55CM
Power required (HP)	100
Total weight with hedgehog roller (KG)	1100

*Specifications are indicative and subject to change at any time

Working width: 2.5 mtr / 5 shanks | 3.0 meters / 7 shanks

About OneHorn

OneHorn is built to make agriculture more productive, reliable, and rewarding for farmers. Backed by the 65-year manufacturing legacy of NIPHA Group, OneHorn brings proven engineering strength and trusted quality to the field. Our machines are designed with a clear focus on value-driven pricing, ensuring farmers get the right performance at the right cost, without compromise. At the core of OneHorn is a commitment to strong ethics and transparency, so every product delivers consistent performance you can rely on season after season. With a deep understanding of real agricultural needs, OneHorn is not just offering machinery – it is enabling farmers to work smarter, improve productivity, and build a more secure future.
