

OneHorn

SEEDX

OneHorn SEEDX machine is an advanced, 3 in-1 agricultural tool that combines tilling, sowing, and seedbed covering into a single pass. It is primarily used to sow crops like wheat directly into fields immediately after harvesting paddy, without needing to clear or burn the leftover straw (stubble).

Salient features

One Pass. Total Field Transformation

Heavy-duty side gearbox powered directly from the main drive shaft for consistent and efficient performance

Seed covering mechanism for proper germination

Technical specification*

MODEL NO	SEEDX6F10R	SEEDX7F11R	SEEDX8F12R
Working width (mm)	1882	2105	2340
Over all width back to front (mm)	1630		
Over all height (mm)	1430		
Weight (kg)	950	1030	1090
Hitch type	CAT-II		
Hp required	50 hp & above	55 hp & above	60 hp & above
Gearbox	Multi speed		
Working depth	4 to 6 inch		
Blade type	LJF type		
No. of blades	48 nos.	54 nos.	60 nos.
Number of disk openers	10 assy (20 discs)	11 assy (22 discs)	12 assy (24 discs)
Disc dia	15 inch		
Disc thickness	3 mm		
Roller pipe	Dia 140 mm		
Seed covering	Dia 140 mm		
No. of rows	10+1	11+1	12+1
Disc spacing	7-1/2" adjustable

About OneHorn

OneHorn is built to make agriculture more productive, reliable, and rewarding for farmers. Backed by the 65-year manufacturing legacy of NIPHA Group, OneHorn brings proven engineering strength and trusted quality to the field. Our machines are designed with a clear focus on value-driven pricing, ensuring farmers get the right performance at the right cost, without compromise. At the core of OneHorn is a commitment to strong ethics and transparency, so every product delivers consistent performance you can rely on season after season. With a deep understanding of real agricultural needs, OneHorn is not just offering machinery – it is enabling farmers to work smarter, improve productivity, and build a more secure future.
