

# ***SHESHA***<sup>SP</sup>

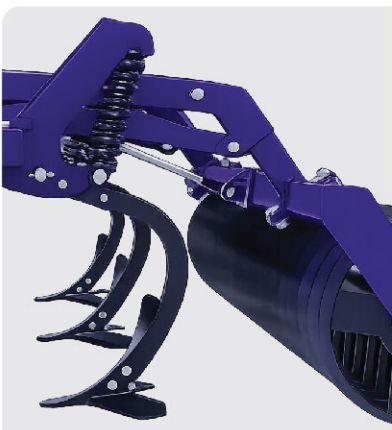

## SHESHA CULTIVATOR

Minimum time. Maximum efficiency. Maximum returns.  
 Built on the OneHorn promise of value, quality, and performance, Shesha delivers precise soil cultivation with a compact, high-efficiency design. It mixes stubble effectively, improves soil health, and reduces weed growth — all while ensuring optimal moisture retention.

With adjustable depth control and uniform seedbed preparation, Shesha minimizes compaction, saves fuel, and lowers operating costs — making it the smart choice for efficient, high-return farming.

### Salient features

Profiled, heavy-duty disc tines ensure effective soil penetration and thorough cultivation, even in tough conditions. The knives overcome obstructions without damage, allowing continuous operation while consistently reaching full working depth (up to 35 cm). This ensures no uncultivated areas remain and helps prevent damage or breakage of components.

The interlocking double spring protection mechanism provides up to 30 cm of deflection when the blade meets an obstacle, ensuring smooth operation and offering a load capacity of up to 850 kg.

### Roller type

CAGE

V-RING

## Technical specification\*

MODEL	SHESHA SP 5	SHESHA SP 7	SHESHA SP 9
Number of tines	5	7	9
Required power (HP)	70-100	90-130	120-170
Working width (m)	2.50	3.00	3.50
Maximum depth (cm)	2.70	3.20	3.70
Weight with cage roller (kg)	985	1190	1387
Weight with v-ring roller (cm)	1150	1355	1624

\*Specifications are indicative and subject to change at any time

Working width: 2.5 mtr / 5 shanks | 3.0 meters / 7 shanks

## About OneHorn

OneHorn is built to make agriculture more productive, reliable, and rewarding for farmers. Backed by the 65-year manufacturing legacy of NIPHA Group, OneHorn brings proven engineering strength and trusted quality to the field. Our machines are designed with a clear focus on value-driven pricing, ensuring farmers get the right performance at the right cost, without compromise. At the core of OneHorn is a commitment to strong ethics and transparency, so every product delivers consistent performance you can rely on season after season. With a deep understanding of real agricultural needs, OneHorn is not just offering machinery — it is enabling farmers to work smarter, improve productivity, and build a more secure future.
