

OneHorn

RUDRAN

Dominate soil compaction.
Drive deeper growth.
Deliver higher returns.

Built on the OneHorn promise of value, quality, and performance, Rudran is engineered to aggressively break hard soil layers, unlocking deeper root penetration and superior moisture access. It transforms soil structure to retain moisture, improve water movement during dry conditions, and support stronger, more resilient crops — delivering powerful performance and consistent productivity season after season.

Salient features

Double rotor with Hydro fitment for proper soil breaking with surface pulverising and also provide stability of complete machine.

Heavy duty tyne with shank and blades ensures high strength and durability for deep soil operation, while the built in safety design protects the subsoiler from damage by absorbing shocks and handling underground obstructions efficiently.

The hydraulic system enables easy operations, better control, and efficient lifting during field use.

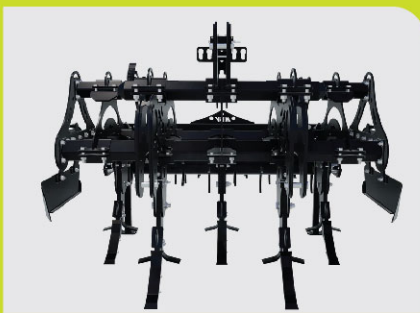

Technical specification*

MODEL NO.	RUDRAN L5	RUDRAN M5	RUDRAN M7	RUDRAN H5	RUDRAN H7
Working width (M)	2.5	2.5	3.0	2.5	3.0
No. of working tyne	5	5	7	5	7
Maximum depth (CM)	45	55	55	65	65
Power required (HP)	100-120	120-140	160-200	160-180	200-240
Weight (KG)	1260	1604	1900	2155	2620

*Specifications are indicative and subject to change at any time

Working width: 2.5 mtr / 5 shanks | 3.0 meters / 7 shanks

Our strengths

65 years manufacturing legacy

Captive gearbox & parts manufacturing

24/7 after-sales support

About OneHorn

OneHorn is built to make agriculture more productive, reliable, and rewarding for farmers. Backed by the 65-year manufacturing legacy of NIPHA Group, OneHorn brings proven engineering strength and trusted quality to the field. Our machines are designed with a clear focus on value-driven pricing, ensuring farmers get the right performance at the right cost, without compromise. At the core of OneHorn is a commitment to strong ethics and transparency, so every product delivers consistent performance you can rely on season after season. With a deep understanding of real agricultural needs, OneHorn is not just offering machinery — it is enabling farmers to work smarter, improve productivity, and build a more secure future.
