

OneHorn

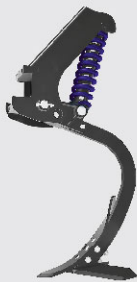

# GARUDA<sup>SP</sup>

Heavy cultivator for various types of soil cultivation

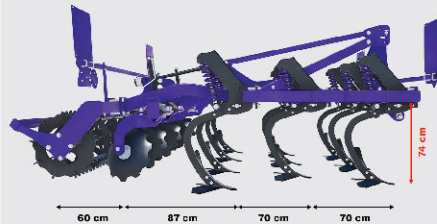

Engineered for superior performance in demanding field conditions, Garuda SP ensures effective soil penetration and efficient breaking of hard and compact soil. The strong and durable construction delivers consistent results, reduces operational effort, and enhances overall field productivity.

## Salient features

Protective springs absorb shocks and prevent damage, ensuring longer machine life

Three rows of widely spaced working organs provide better soil flow and effective operation without clogging

Rubber protection for discs reduces wear and tear while enhancing durability and safety

Roller type

CAGE

V-RING

# OneHorn

## Technical specification\*

MODEL	GARUDA SP - 300	GARUDA SP - 350
Number of tines	10	12
Required power (hp)	115-130	120-170
Working width (m)	3.00	3.50
Transport width (m)	3.20	3.70
Weight with cage roller (kg)	2074	2286
Weight with V-ring roller (kg)	2240	2504

\*Specifications are indicative and subject to change at any time.

Working width: **3.0 meters / 10 shanks** | **3.5 meters / 12 shanks**

**Our strengths**

**65 years**  
manufacturing legacy

**Captive gearbox &**  
parts manufacturing

**24/7 after-sales**

## About OneHorn

OneHorn is built to make agriculture more productive, reliable, and rewarding for farmers. Backed by the 65-year manufacturing legacy of NIPHA Group, OneHorn brings proven engineering strength and trusted quality to the field. Our machines are designed with a clear focus on value-driven pricing, ensuring farmers get the right performance at the right cost, without compromise. At the core of OneHorn is a commitment to strong ethics and transparency, so every product delivers consistent performance you can rely on season after season. With a deep understanding of real agricultural needs, OneHorn is not just offering machinery — it is enabling farmers to work smarter, improve productivity, and build a more secure future.
