BOLD SS

High quality single speed gearbox and High-Durability Oil Sea

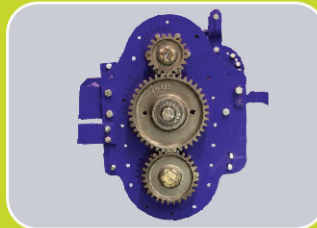

The Bold SS Series is a versatile range of rotary tillers engineered for compact tractors, delivering excellent performance in intercultivation and orchard applications. Equipped with a robust single-speed gearbox and long-life oil seals, it ensures reliable operation, effective weed control, and superior dry tillage efficiency —making it an essential tool for every farmer.

Salient features

In-house manufacturing assured quality

EN 353 gears for longer life and supreme performance

Boron steel blade for high durability and helix blade arrangement

Advantages

Nominal maintenance

Fuel efficient

Best soil preparation

Our strengths

65 years manufacturing legacy

Captive gearbox & parts manufacturing

24/7 after-sales support

About OneHorn

OneHorn is built to make agriculture more productive, reliable, and rewarding for farmers. Backed by the 65-year manufacturing legacy of NIPHA Group, OneHorn brings proven engineering strength and trusted quality to the field. Our machines are designed with a clear focus on value-driven pricing, ensuring farmers get the right performance at the right cost, without compromise. At the core of OneHorn is a commitment to strong ethics and transparency, so every product delivers consistent performance you can rely on season after season. With a deep understanding of real agricultural needs, OneHorn is not just offering machinery – it is enabling farmers to work smarter, improve productivity, and build a more secure future.
