

# OneHorn

## **BHUDEV**

### Precision power for perfect soil cultivation

Built for the toughest fields, **OneHorn Bhudev Disc Harrow** is engineered to dominate difficult soil conditions with strength, speed, and precision. With a robust chassis and aggressively angled discs, it delivers superior residue management-cutting, crushing, and integrating plant material into the soil without disturbing its natural structure.

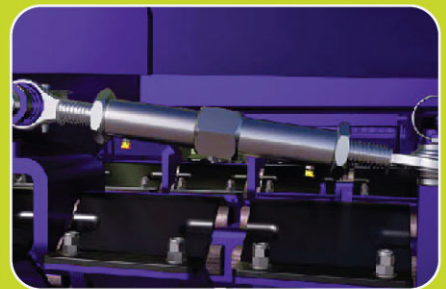

### Salient features

A versatile tool for seedbed preparation and stubble incorporation. Disc fillers are designed for versatility, featuring two disc angles that allow for excellent penetration into hard soil while ensuring even soil turnover for effective stubble incorporation.

Agri Hub is a fully integrated bearing and sealing system that provides protection against straw, mud, fertiliser, and dust. This enhances the lifespan and ensures the proper functioning of the disc.

Lateral gang adjustment allows for fine-tuning of the disc, helping you achieve the best possible results from your work.

### Roller Type

Cage

Disc

V-Ring

## Technical specification\*

MODEL	BHUDEV 32	BHUDEV 40	BHUDEV 48
Number of discs	32	40	48
Required power (hp)	130-170	170-210	190-230
Working width (m)	4	5	6
Transport width (m)	2.80	2.80	2.80
Disc diameter (mm)	560	560	560
Weight with cage roller (kg)	2490	2890	3270
Weight with v-ring roller (kg)	2890	3240	3620
Weight with disc roller (kg)	3280	3870	4380

\*Specifications are indicative and subject to change at any time.

\*Transportation weight (960kg) based on requirement.

Working width: **4 Meter** | **5 Meter** | **6 Meter**

## About OneHorn

OneHorn is built to make agriculture more productive, reliable, and rewarding for farmers. Backed by the 65-year manufacturing legacy of NIPHA Group, OneHorn brings proven engineering strength and trusted quality to the field. Our machines are designed with a clear focus on value-driven pricing, ensuring farmers get the right performance at the right cost, without compromise. At the core of OneHorn is a commitment to strong ethics and transparency, so every product delivers consistent performance you can rely on season after season. With a deep understanding of real agricultural needs, OneHorn is not just offering machinery — it is enabling farmers to work smarter, improve productivity, and build a more secure future.
